

Instructions for Reviewing the Zero Emissions Certificate Application Postings

These postings set forth the public versions of the Applications submitted by PSEG Nuclear LLC (“PSEG Nuclear”) for the Hope Creek, Salem 1 and Salem 2 nuclear plants, seeking an award of Zero Emission Certificates (“ZECs”) from the New Jersey Board of Public Utilities (“BPU”). These postings include the public versions of information for the Salem 1 and Salem 2 plants from Exelon Generation Company, LLC (“Exelon Generation”), the minority co-owner of those plants. In addition, certain materials related to the Salem 1 and Salem 2 plants were submitted independently to the BPU by Exelon Generation and will be posted separately. It should be noted that files marked as “confidential” have either been redacted or omitted depending on the nature of those files.

The hyperlink entitled “Application Cover Letter” for each plant is a cover letter submitted by PSEG Nuclear that generally describes the main elements of the Application submittal. The hyperlink entitled “Application Index” provides a list of all attachments provided as part of the application. The hyperlink entitled “SUPPORTING DOCUMENTATION” is a set of documents that reflect elements of the Application. The numeral designations and names on the links correspond to the numbering and category names used in the form of the Application promulgated by the BPU. Abbreviations used in links correspond to the following categories in the Application:

GAI: “Generation Applicant Information”

GAIO: “Generation Asset Information and Operation”

ZECJ-FIN: “Zero Emission Credit Justification–Financial”

ZECJ-ENV: “Zero Emission Credit Justification–Environmental”

IUD: “Impact of the Unit’s Deactivation”

SSA: “Supplemental Submissions with the Application”

The materials included in the posting for Exelon Generation with respect to the Salem 1 and Salem 2 plants are described in the posted Exelon Generation documents.
