

Instructions for Reviewing the Zero Emissions Certificate Application Postings

These postings set forth the public (redacted) versions of the Applications submitted by PSEG Nuclear LLC (“PSEG Nuclear”) for the Hope Creek, Salem 1 and Salem 2 nuclear plants, seeking an award of Zero Emission Certificates (“ZECs”) from the New Jersey Board of Public Utilities (“BPU”). In addition, certain materials related to the Salem 1 and Salem 2 plants were submitted independently to the BPU by the co-owner of those plants, Exelon Generation Company, LLC (“Exelon Generation”). The public (redacted) versions of the Exelon Generation submittals are also included. It should be noted that files marked as “confidential” have been redacted.

The hyperlink on the word “Application” for each plant is a transmittal letter submitted by PSEG Nuclear that generally describes the main elements of the Application submittal. The hyperlink on “SUPPORTING DOCUMENTATION” is a set of folders that reflect elements of the Application. The Roman numeral designations and names of the folders correspond to the numbering and category names used in the form of Application promulgated by the BPU. Abbreviations used in links included in the numbered folders correspond to the following categories in the Application:

GAI: “Generation Applicant Information”

GAIO: “Generation Asset Information and Operation”

ZECJ-FIN: “Zero Emission Credit Justification–Financial”

ZECJ-ENV: “Zero Emission Credit Justification – Environmental”

IUD: “Impact of the Unit’s Deactivation”

MISC: “Miscellaneous”

SSA: “Supplemental Submissions with the Application”

The materials included in the posting for Exelon Generation with respect to the Salem 1 and Salem 2 plants are described in the posted Exelon Generation documents.
